Click, Schedule And Go With Online Bill Pay Summer's too short to spend it tracking down your checkbook, a pen, and stamps to pay your bills, then racing off to the post office to make sure your payment isn't late. Use the credit union's Online Bill Pay service to simply click, schedule, and go. Log on to the credit union's website, click on online services then on bill pay, and follow the prompts. Because it's likely many of your monthly expenses are recurring, for example, your utility and credit card bills, you'll only need to enter the payee account information once. Then simply schedule the bill for on-time payment. A few more clicks and you're ready to go. It's one of life's greatest conveniences brought to you by your credit union. If you need help getting started, call on us today.

What's new at your Credit Union?
